

<b>Chapter/Volume</b>	<b>Title</b>
<b>Volume I: Main Text</b>	
1	Introduction and EIA Methodology
2	Description of Site, Surroundings and Background
3	Proposed Development, Demolition, Construction and Description of Alternatives
4	Air Quality
5	Ecology
6	Landscape and Visual Impact Assessment
7	Socio-Economics
8	Transport
9	Water Resources and Flood Risk
10	Residual Effects, Mitigation and Cumulative Effects
<b>Volume II: Technical Appendices</b>	
1.1	Location of Specified Information in the ES
1.2	EIA Scoping Report
1.3.1	CC EIA Scoping Opinion Response
1.3.2	NRW EIA Scoping Opinion Response
1.3.3	Scoping Opinion Responses Summary Table
1.4	Cumulative Schemes
1.5	Competency Statement
3.1	Detailed Planning Drawings
3.2	Parameter Plans
3.3	Construction Environmental Management Plan (CEMP)
3.4	Noise and Vibration Technical Piling Note
4.1	Figure A.1 Spatial extent of Study Area
4.2	Air Quality Assessment
5.1	Ecological Impact Assessment
5.2	Woodland Management Plan
6.1	Site Location and Context
6.2	Topography
6.3	Planning Policy/ Landscape Designations
6.4 to 6.5	Landscape Character
6.6	Viewpoint Locations
6.7 to 6.19	Viewpoints
6.20 to 6.28	Wireframes

7.1	Health Impact Assessment
8.1	Transport Assessment
9.1	Flood Consequences Assessment (FCA)
9.2	Drainage Strategy
9.3	WFD scoping and screening report
Volume III: Non-Technical Summary	
n/a	Non-Technical Summary
